

# Lake Dye

15 x 5.25 oz Individual WSP-Foil Steeved

Midnight Blue

Black

Blue

---

## USAGE INSTRUCTIONS

- Apply the product at the rate of 1 x 5.25 ounce water soluble dye package to 1 acre feet of water. The amount of product may be varied to obtain a lighter or a darker hue. Apply the product directly to the water in several locations by simply throwing in the completely safe and water soluble dye package in your pond. Allow several hours for the product to disperse. The product lasts 4-6 weeks. To return the color to its intended coloration level, simply throw in another dye package of product from time to time. This will offset the fading that occurs when exposed to sunlight.

## STORAGE & HANDLING

- Rubber gloves and eye protection are suggested when handling product. Close lid tightly after use. Keep the product in a cool, dry location, do not allow freezing.
- CAUTION: Keep out of reach of children. Harmful if swallowed. If staining of skin occurs, wash thoroughly with soap and water. If any irritation occurs, contact a physician.
